SUMMARY

Specializing in Front-End Web Development, I am currently focused on enhancing my skills in front-end web development, with hands-on experience in NEXT.js, React.js, Node.js, BootStrap5, HTML5, CSS3 and Tailwind CSS. My goal is to create visually engaging, interactive web applications that provide seamless user experiences.

SKILLS

Languages: HTML5, CSS3, Bootstrap5, Tailwind CSS, JavaScript, React.Js and Bootstrap5.

Tools: Visual Studio Code, Git, GitHub, React-dev Tools.

Tech: Responsive and Adaptive Design.

Soft skills: Problem-solving and excellent Verbal Communication.

EDUCATION

10/2020 - 6/2024 **Shaheed Zulfikar Ali Bhutto Institute of Science and Technology - Islamabad**   **BS - Software Engineering**
Fundamental of programming, OOP, DSA, Software architecture and Databases

7/2018 - 7/2020 **Islamabad Model College for Boys F-10/3 - Islamabad**   **HSSC ICS**
Computer Sciences, Mathematics

EXPERIENCE

3/2022 - 5/2022 **React Intern**   **Global Age Intern's**
- Developed expertise in creating static websites using React.js, HTML, CSS and Tailwind CSS.
- Gained hands-on experience building interactive web pages using React.js components.
- Enhanced web development skills through global learning experiences.

7/2022 - Present **Freelancing**   **Fiverr**
- Gained hands-on experience building React.js static websites.
- Utilized Bootstrap for responsive layouts and design.
- Delivered client projects with clean, efficient, and scalable code.

PROJECTS

Next.Js / Node.Js **BlockchainCap**   ○ Repo Link
- Developed a cryptocurrency app, utilizing Next.js, Node.JS, TailwindCSS, and web3.js. Integrated Coingecko (market data) and Uniswap functionality APIs to deliver a feature-rich user experience.
- Enhanced user engagement by incorporating an LLM chatbot, providing informative project details.
- Ensured data accuracy by managing and incorporating over 100 data points for Tokens holdings.

React.Js **Memory Game**   ○ Repo Link
- Memory Game, a fun game built with React.js.
- Flip two cards each turn to reveal images, and try to match all the pairs in the fewest turns possible.
- Enjoy a unique experience every round as the game shuffles cards randomly at the start of each new session.

React.Js **Digital Watch**   ○ Repo Link
- Displays real-time updates of the current time in various countries, using IPGeolocation API.
- Interactive app allowing users to select their preferred location from a dropdown menu, with responsive time display updating every second.
- Features a sleek flip clock effect, providing an enhanced visual experience.
